Figures, Diagrams and Tables ix
Preface xiii
Acknowledgements xv

1. Introduction: It is the Only One We Have 1
   1.1 An Introduction to Basic Concepts 3
   1.2 From Macro to Earth 5
   1.3 Plan of the Book 6
   1.4 How to Use this Book 7
   1.5 Key Concepts 8

2. Planet Accounts 9
   2.1 Why Accounting? 9
   2.2 Getting the Numbers 11
   2.3 Specific Measurement Issues 18
   2.4 From Description to Analysis 22
   2.5 Key Concepts 22

PART I SHORT-TERM FLUCTUATIONS AND DEMAND MANAGEMENT

3. Earth’s Business Cycle 25
   3.1 Fluctuations in Gross Planet Product 25
   3.2 Earth Inflation 29
   3.3 Three Decades of Growth and Inflation 33
   3.4 Planet Unemployment 34
   3.5 Key Concepts 38
   4.1 Consumption
   4.2 Other Consumption Theories
   4.3 Saving – Investment and Global Savings Glut
   4.4 The Multiplier
   4.5 A Short Digression on Notations and Graphical Representations
   4.6 Key Concepts

5. Investment, the IS Curve, and Product Market Equilibrium
   5.1 World Investment
   5.2 The $I = S$ Schedule
   5.3 Other Investment Theories
   5.4 Key Concepts

6. What About Government?
   6.1 Bringing Government into the Equations
   6.2 Government Multipliers
   6.3 Income (Re)Distribution
   6.4 Debt Dynamics
   6.5 Key Concepts

7. Money Matters! The LM Curve and Money Market Equilibrium
   7.1 Money Demand
   7.2 Derivation of the LM Schedule
   7.3 Monetary Policy and the Great Recession
   7.4 Key Concepts

8. EarthEconomic Demand and Supply
   8.1 Demand Side Equilibrium: $I=S$ and $L=M$
   8.2 EarthEconomic Demand
   8.3 EarthEconomic Supply
   8.4 Combining EarthEconomic Supply and Demand
   8.5 Key Concepts

9. Puzzling Disagreements
   9.1 Interest Rate Sensitivity of the IS Curve
   9.2 Interest Rate Sensitivity of the LM Curve
   9.3 Demand and Full Employment Supply
   9.4 Price Rigidity
   9.5 Identification
   9.6 Key Concepts
PART II  LONG RUN

10.  Long-Run Growth
    10.1 Earth's Production, the Capital Stock and the Dynamics of Growth  113
    10.2 The Neoclassical Growth Model  115
    10.3 Growth Accounting  120
    10.4 Key Concepts  126

11.  Development and Change
    11.1 Poverty Trap in the Solow Model  128
    11.2 Escape Routes: Saving, Fertility, Innovation and Efficiency  130
    11.3 A Closer Look at Structural Reform  135
    11.4 Key Concepts  138

12.  Limits to Growth?
    12.1 The Kondratieff Wave  139
    12.2 Does the Long Wave Make Sense?  140
    12.3 Limits to Growth  144
    12.4 Key Concepts  146

PART III  EARTH GOVERNANCE AND GLOBAL PUBLIC GOODS

13.  Global Public Goods
    13.1 Globalization  149
    13.2 Global External Effects  152
    13.3 Fragmentation and Leadership: History  156
    13.4 Key Concepts  157

    14.1 Fragmentation and Leadership: Future  161
    14.2 A Global Agenda of Peers  163
    14.3 Key Concepts  167
