<i>List of figures</i>	<i>page</i>	vii
<i>List of tables</i>		ix
<i>Preface</i>		xi
1	The relevance of education	1
2	The demand for education	15
2.1	Education as creation of minimal capabilities	15
2.2	Education as investment in human capital	18
2.3	The role of individual talent	27
2.4	Imperfect financial markets and the indivisibility of human capital investment	29
	Appendix: Human capital investment in a continuous-time model	35
3	Liquidity constraints and access to education	47
3.1	Access to education and growth	48
3.2	Individual demand for education and aggregate income distribution	50
3.3	Data description	59
3.4	Empirical analysis	62
3.5	Concluding remarks	75
4	The supply of education	84
4.1	Human capital formation	84
4.2	Class formation and peer effects	86
4.3	Integration or segregation?	89
4.4	Class size	94
4.5	Resource effectiveness	97
4.6	Resource efficiency	101
4.7	Efficiency versus equity	105

5	Education financing	114
	5.1 Introduction	114
	5.2 The demand for education when agents differ in abilities and family incomes	115
	5.3 An application: the choice between private and public university in Italy	119
	5.4 The collective choice over public or private schooling	123
	5.5 Growth and inequality under public and private schooling	129
	5.6 Education financing and school stratification	135
	5.7 The school voucher as a solution?	141
	5.8 Subsidising or lending?	145
	5.9 Summing up	147
	Appendix: Income inequality in a neoclassical model of growth	148
6	The return on education	163
	6.1 Introduction	163
	6.2 The productivity of human capital	163
	6.3 Effort-enhancing preferences	169
	6.4 Education as a signal or as a screening device	176
	6.5 On-the-job training	185
	6.6 Measuring the return on education	192
	6.7 Estimating the return on education	200
7	Intergenerational persistence	215
	7.1 Introduction	215
	7.2 An initial model of intergenerational persistence	223
	7.3 Intergenerational persistence with perfect information on children's talent	227
	7.4 Intergenerational persistence with imperfect information on children's talent	231
	7.5 Intergenerational persistence and equilibrium inequality under imperfect information on talent	234
	7.6 What we know from empirical analysis	239
