## **Introduction**

---

Aims and scope	2
Key considerations	4
Summary	7
How to use this book	8

---

## **Section 1 Population dynamics**

---

<b>1 Population change</b>	<b>13</b>
1.1 Origins of demography	14
1.2 The demographic transition	16
1.3 Sources of data	24
1.4 Components of change	29
1.5 Comparative measures	31
1.6 Basic measures of change	33
1.7 Interpreting changes	35
1.8 Conclusion	37
Study resources	39
<b>2 Population growth and decline</b>	<b>45</b>
2.1 Concepts of growth	46
2.2 Analysing growth	57
2.3 Geometric growth	61
2.4 Exponential growth	64
2.5 Growth and replacement	68
2.6 Conclusion	70
Study resources	71
<b>3 Age–sex composition</b>	<b>76</b>
3.1 Statistics on age	79
3.2 Population pyramids	81

3.3	Further methods of data visualization	83
3.4	Summary measures	85
3.5	Concepts in the interpretation of age–sex composition	97
3.6	Conclusion	107
	Study resources	109

---

## Section 2 Analytical approaches

---

<b>4</b>	<b>Comparing populations</b>	<b>119</b>
4.1	Comparing rates	121
4.2	Direct standardization	125
4.3	Indirect standardization	130
4.4	Period and cohort analyses	135
4.5	Conclusion	142
	Study resources	143
<b>5</b>	<b>Demographic writing</b>	<b>150</b>
5.1	Types of studies	152
5.2	Starting demographic research	157
5.3	Interpreting information	158
5.4	Writing a paper	161
5.5	Conclusion	167
	Study resources	169

---

## Section 3 Vital processes

---

<b>6</b>	<b>Mortality and health</b>	<b>179</b>
6.1	Sources of statistics on mortality and health	180
6.2	The epidemiologic transition	185
6.3	Measures of mortality	192
6.4	Health and illness	206
6.5	Conclusion	211
	Study resources	213
<b>7</b>	<b>Fertility and the family</b>	<b>220</b>
7.1	Family change	222
7.2	The second demographic transition	223
7.3	Period and cohort approaches	229
7.4	Period measures of fertility	230
7.5	Synthetic cohort measures of fertility and replacement	238
7.6	Real cohort measures of fertility	250
7.7	Measures of marriage and divorce	251

7.8 Conclusion	255
Study resources	256

## Section 4 Demographic models

<b>8 Life tables</b>	<b>265</b>
8.1 The first life tables	266
8.2 Types of life tables	267
8.3 Constructing complete life tables	270
8.4 Constructing abridged life tables	285
8.5 Conclusion	292
Study resources	294
<b>9 Stable and stationary models</b>	<b>300</b>
9.1 Stable populations	301
9.2 Constructing stable population models	303
9.3 Model life tables	312
9.4 Model stable populations	325
9.5 Population momentum	327
9.6 Population ageing	332
9.7 Further applications of stable and stationary models	334
9.8 Conclusion	337
Study resources	338

## Section 5 Spatial patterns and processes

<b>10 Population distribution</b>	<b>347</b>
10.1 Where people live	348
10.2 Types of spatial units	349
10.3 Measures of population distribution	352
10.4 Housing	363
10.5 Population mapping and GIS	367
10.6 Types of population maps	368
10.7 Conclusion	376
Study resources	377
<b>11 Migration</b>	<b>384</b>
11.1 Concepts and theories	386
11.2 Migration statistics	391
11.3 Migration rates	394
11.4 Migration effectiveness	400
11.5 Migration expectancy	401
11.6 Estimating migration	403

11.7	Calculating survival ratios	418
11.8	Conclusion	421
	Study resources	422

---

## Section 6 Applied demography

---

<b>12</b>	<b>Population projections and estimates</b>	<b>429</b>
12.1	Applications and issues	433
12.2	Population estimates	436
12.3	Projection methods	437
12.4	Calculating cohort component projections	442
12.5	Elaborating the basic cohort component model	447
12.6	Further methods for sub-national populations	455
12.7	Conclusion	462
	Study resources	464
<b>13</b>	<b>Population composition</b>	<b>469</b>
13.1	Projecting population composition	470
13.2	Labour force projections	471
13.3	Projections of households and families	473
13.4	Summary measures of population composition	479
13.5	Multivariate measures	490
13.6	Conclusion	495
	Study resources	497

---

## Appendices

---

<b>A</b>	<b>Basic maths</b>	<b>505</b>
<b>B</b>	<b>Using the Excel modules</b>	<b>507</b>
<b>C</b>	<b>Introduction to Excel</b>	<b>509</b>
<b>D</b>	<b>Answers to exercises</b>	<b>513</b>
	<i>Bibliography</i>	525
	<i>Index</i>	540
