

Brief Contents

Preface 15

PART 1 Introduction

- 1 Introduction to Macroeconomics 27
- 2 The Measurement and Structure of the National Economy 48

PART 2 Long-Run Economic Performance

- 3 Productivity, Output, and Employment 86
- 4 Consumption, Saving, and Investment 131
- 5 Saving and Investment in the Open Economy 194
- 6 Long-Run Economic Growth 233
- 7 The Asset Market, Money, and Prices 268

PART 3 Business Cycles and Macroeconomic Policy

- 8 Business Cycles 306
- 9 The *IS-LM/AD-AS* Model: A General Framework for Macroeconomic Analysis 342
- 10 Classical Business Cycle Analysis: Market-Clearing Macroeconomics 393
- 11 Keynesianism: The Macroeconomics of Wage and Price Rigidity 434

PART 4 Macroeconomic Policy: Its Environment and Institutions

- 12 Unemployment and Inflation 475
- 13 Exchange Rates, Business Cycles, and Macroeconomic Policy in the Open Economy 507
- 14 Monetary Policy and the Federal Reserve System 560
- 15 Government Spending and Its Financing 606

Appendix A Some Useful Analytical Tools 643

Glossary 650

Name Index 661

Subject Index 663

Detailed Contents

Preface 15

PART 1 Introduction

CHAPTER 1 Introduction to Macroeconomics 27

1.1 What Macroeconomics Is About 27

Long-Run Economic Growth 28

Business Cycles 30

Unemployment 31

Inflation 32

The International Economy 33

Macroeconomic Policy 34

Aggregation 35

1.2 What Macroeconomists Do 36

Macroeconomic Forecasting 36

Macroeconomic Analysis 37

Macroeconomic Research 38

IN TOUCH WITH DATA AND RESEARCH:

Developing and Testing an Economic Theory 39

Data Development 40

1.3 Why Macroeconomists Disagree 40

Classicals Versus Keynesians 41

A Unified Approach to Macroeconomics 44

CHAPTER 2 The Measurement and Structure of the National Economy 48

2.1 National Income Accounting: The Measurement of Production, Income, and Expenditure 48

IN TOUCH WITH DATA AND RESEARCH:

The National Income and Product Accounts in Malaysia 50

Why the Three Approaches Are Equivalent 51

2.2 Gross Domestic Product 52

The Product Approach to Measuring GDP 52

IN TOUCH WITH DATA AND RESEARCH:

Natural Resources, the Environment, and the National Income Accounts 55

The Expenditure Approach to Measuring GDP 56

The Income Approach to Measuring GDP 59

2.3 Saving and Wealth 62

Measures of Aggregate Saving 62

The Uses of Private Saving 65

Relating Saving and Wealth 66

2.4 Real GDP, Price Indexes, and Inflation 68

Real GDP 68

Price Indexes 70

IN TOUCH WITH DATA AND RESEARCH:

The Computer Revolution and Chain-Weighted GDP 71

IN TOUCH WITH DATA AND RESEARCH:

CPI Inflation vs. Core Inflation 73

APPLICATION The Federal Reserve's Preferred Inflation Measures 75

2.5 Interest Rates 77

PART 2 Long-Run Economic Performance

CHAPTER 3 Productivity, Output, and Employment 86

3.1 How Much Does the Economy Produce? The Production Function 87

APPLICATION The Production Function of the U.S. Economy and U.S. Productivity Growth 88

The Shape of the Production Function 90

The Marginal Product of Capital 91

The Marginal Product of Labor 92
 Supply Shocks 94

3.2 The Demand for Labor 96
 The Marginal Product of Labor and Labor Demand:
 An Example 97
 A Change in the Wage 99
 The Marginal Product of Labor and the Labor
 Demand Curve 99
 Factors That Shift the Labor Demand Curve 101
 Aggregate Labor Demand 103

3.3 The Supply of Labor 103
 The Income–Leisure Trade-Off 104
 Real Wages and Labor Supply 104
 The Labor Supply Curve 107
 Aggregate Labor Supply 108

3.4 Labor Market Equilibrium 109
 Full-Employment Output 111
APPLICATION Output, Employment, and the Real Wage
 During Oil Price Shocks 111

3.5 Unemployment 113
 Measuring Unemployment 113
 IN TOUCH WITH DATA AND RESEARCH:
 Labor Market Data in Kazakhstan 114
 Changes in Employment Status 115
 How Long Are People Unemployed? 116
APPLICATION Unemployment Duration and the 2007–2009
 Recession 117
 Why There Always Are Unemployed People 118

**3.6 Relating Output and Unemployment:
 Okun’s Law 120**

APPENDIX 3.A The Growth Rate Form of Okun’s Law 130

**CHAPTER 4 Consumption, Saving,
 and Investment 131**

4.1 Consumption and Saving 132
 The Consumption and Saving Decision of an
 Individual 133
 Effect of Changes in Current Income 134
 Effect of Changes in Expected Future Income 135

APPLICATION The Idiosyncrasy of Singapore Aggregate
 Consumption 136
 Effect of Changes in Wealth 139
 Effect of Changes in the Real Interest Rate 139
 Fiscal Policy 141
 IN TOUCH WITH DATA AND RESEARCH:
 Interest Rates 142

APPLICATION How Consumers Respond to Tax
 Rebates 146

4.2 Investment 148
 The Desired Capital Stock 149
 Changes in the Desired Capital Stock 152
APPLICATION Measuring the Effects of Taxes on
 Investment 155
 From the Desired Capital Stock
 to Investment 156
 Investment in Inventories and Housing 159
 IN TOUCH WITH DATA AND RESEARCH:
 Investment and the Stock Market 159

4.3 Goods Market Equilibrium 161
 The Saving–Investment Diagram 162
APPLICATION Macroeconomic Consequences of the Boom
 and Bust in Stock Prices 166

**APPENDIX 4.A A Formal Model of Consumption and
 Saving 178**

**CHAPTER 5 Saving and Investment in the Open
 Economy 194**

5.1 Balance of Payments Accounting 195
 The Current Account 195
 IN TOUCH WITH DATA AND RESEARCH:
 The Balance of Payments Accounts in Malaysia 197
 The Capital and Financial Account 198
 The Relationship Between the Current Account and
 the Capital and Financial Account 200
 Net Foreign Assets and the Balance of Payments
 Accounts 202
APPLICATION The United States as International Debtor 203

**5.2 Goods Market Equilibrium in an Open
 Economy 206**

**5.3 Saving and Investment in a Small Open
 Economy 207**

The Effects of Economic Shocks in a Small Open Economy 210

5.4 Saving and Investment in Large Open Economies 212

APPLICATION The Impact of Globalization on High-Income Economies 215

APPLICATION Recent Trends in the U.S. Current Account Deficit 217

5.5 Fiscal Policy and the Current Account 220

The Critical Factor: The Response of National Saving 220

The Government Budget Deficit and National Saving 221

APPLICATION The Twin Deficits 222

CHAPTER 6 Long-Run Economic Growth 233

6.1 The Sources of Economic Growth 234

Growth Accounting 236

APPLICATION The Post-1973 Slowdown in Productivity Growth 239

APPLICATION The Recent Trends in UK Productivity 241

6.2 Long-Run Growth: The Solow Model 244

Setup of the Solow Model 245

The Fundamental Determinants of Long-Run Living Standards 252

APPLICATION The Growth of China 257

6.3 Endogenous Growth Theory 259

6.4 Government Policies to Raise Long-Run Living Standards 261

Policies to Affect the Saving Rate 261

Policies to Raise the Rate of Productivity Growth 261

CHAPTER 7 The Asset Market, Money, and Prices 268

7.1 What Is Money? 268

IN TOUCH WITH DATA AND RESEARCH:
Money in a Prisoner-of-War Camp 269

The Functions of Money 270

IN TOUCH WITH DATA AND RESEARCH:
The Monetary Aggregates 272

IN TOUCH WITH DATA AND RESEARCH:
The Effect of Dollarization on the United States and Foreign Nations 273

7.2 Portfolio Allocation and the Demand for Assets 275

Expected Return 275

Risk 276

Liquidity 276

Time to Maturity 276

Types of Assets and Their Characteristics 277

IN TOUCH WITH DATA AND RESEARCH:
Capital Flows and Property Prices 280

Asset Demands 282

7.3 The Demand for Money 282

The Price Level 283

Real Income 283

Interest Rates 284

The Money Demand Function 284

Other Factors Affecting Money Demand 286

Velocity and the Quantity Theory of Money 288

7.4 Asset Market Equilibrium 291

Asset Market Equilibrium: An Aggregation Assumption 291

The Asset Market Equilibrium Condition 293

7.5 Money Growth and Inflation 294

APPLICATION Money Growth and Inflation in European Countries in Transition 295

The Expected Inflation Rate and the Nominal Interest Rate 296

APPLICATION Measuring Inflation Expectations 298

PART 3 Business Cycles and Macroeconomic Policy

CHAPTER 8 Business Cycles 306

8.1 What Is a Business Cycle? 307

8.2 The American Business Cycle: The Historical Record 309

- The Pre–World War I Period 309
- The Great Depression and World War II 309
- Post–World War II U.S. Business Cycles 311
- The “Long Boom” 312
- The Great Recession 312
- Have American Business Cycles Become Less Severe? 313

8.3 Business Cycle Facts 316

- The Cyclical Behavior of Economic Variables: Direction and Timing 316
- Production 317
- Expenditure 319
- Employment and Unemployment 320
- APPLICATION** The Job Finding Rate and the Job Loss Rate 321
- Average Labor Productivity and the Real Wage 324
- Money Growth and Inflation 325
- Financial Variables 326
- International Aspects of the Business Cycle 327
- IN TOUCH WITH DATA AND RESEARCH: Coincident and Leading Indexes 328

8.4 Business Cycle Analysis: A Preview 332

- IN TOUCH WITH DATA AND RESEARCH: The Seasonal Cycle and the Business Cycle 333
- Aggregate Demand and Aggregate Supply: A Brief Introduction 334

CHAPTER 9 The IS–LM/AD–AS Model: A General Framework for Macroeconomic Analysis 342

- 9.1 The FE Line: Equilibrium in the Labor Market 343**
 - Factors That Shift the FE Line 343
- 9.2 The IS Curve: Equilibrium in the Goods Market 345**
 - Factors That Shift the IS Curve 347
- 9.3 The LM Curve: Asset Market Equilibrium 349**
 - The Interest Rate and the Price of a Nonmonetary Asset 350

- The Equality of Money Demanded and Money Supplied 350
- Factors That Shift the LM Curve 353

9.4 General Equilibrium in the Complete IS–LM Model 356

- Applying the IS–LM Framework: A Temporary Adverse Supply Shock 358

APPLICATION Oil Price Shocks Revisited 360

IN TOUCH WITH DATA AND RESEARCH: Econometric Models and Macroeconomic Forecasts for Monetary Policy Analysis 361

9.5 Price Adjustment and the Attainment of General Equilibrium 362

- The Effects of a Monetary Expansion 362
- Classical Versus Keynesian Versions of the IS–LM Model 366

9.6 Aggregate Demand and Aggregate Supply 368

- The Aggregate Demand Curve 368
- The Aggregate Supply Curve 370
- Equilibrium in the AD–AS Model 373
- Monetary Neutrality in the AD–AS Model 374

APPENDIX 9.A Worked-Out Numerical Exercise for Solving the IS–LM/AD–AS Model 383

APPENDIX 9.B Algebraic Versions of the IS–LM and AD–AS Models 386

CHAPTER 10 Classical Business Cycle Analysis: Market-Clearing Macroeconomics 393

- 10.1 Business Cycles in the Classical Model 394**
 - The Real Business Cycle Theory 394
 - APPLICATION** Calibrating the Business Cycle 397
- 10.2 Fiscal Policy Shocks in the Classical Model 404**
- 10.3 Unemployment in the Classical Model 408**
 - Jobless Recoveries 410
- 10.4 Money in the Classical Model 412**
 - Monetary Policy and the Economy 412

Monetary Nonneutrality and Reverse Causation 413
 The Nonneutrality of Money: Additional Evidence 414

10.5 The Misperceptions Theory and the Nonneutrality of Money 415

Monetary Policy and the Misperceptions Theory 418
 Rational Expectations and the Role of Monetary Policy 420
 IN TOUCH WITH DATA AND RESEARCH:
 Are Price Forecasts Rational? 422

APPENDIX 10.A Worked-Out Numerical Exercise for Solving the Classical $AD-AS$ Model with Misperceptions 431

APPENDIX 10.B An Algebraic Version of the Classical $AD-AS$ Model with Misperceptions 432

CHAPTER 11 Keynesianism: The Macroeconomics of Wage and Price Rigidity 434

11.1 Real-Wage Rigidity 435

Some Reasons for Real-Wage Rigidity 435
 The Efficiency Wage Model 436
 Wage Determination in the Efficiency Wage Model 437
 Employment and Unemployment in the Efficiency Wage Model 438
 Efficiency Wages and the FE Line 440
 IN TOUCH WITH DATA AND RESEARCH:
 Efficiency Wages 441

11.2 Price Stickiness 442

Sources of Price Stickiness: Monopolistic Competition and Menu Costs 442

11.3 Monetary and Fiscal Policy in the Keynesian Model 448

Monetary Policy 448
 Fiscal Policy 451

11.4 The Keynesian Theory of Business Cycles and Macroeconomic Stabilization 454

Keynesian Business Cycle Theory 454

Macroeconomic Stabilization 457
 Supply Shocks in the Keynesian Model 459

IN TOUCH WITH DATA AND RESEARCH:
 DSGE Models and the Classical–Keynesian Debate 461

APPENDIX 11.A Labor Contracts and Nominal-Wage Rigidity 468

APPENDIX 11.B Worked-Out Numerical Exercise for Calculating the Multiplier in a Keynesian Model 471

APPENDIX 11.C The Multiplier in the Keynesian Model 473

PART 4 Macroeconomic Policy: Its Environment and Institutions

CHAPTER 12 Unemployment and Inflation 475

12.1 Unemployment and Inflation: Is There a Trade-Off? 475

The Expectations-Augmented Phillips Curve 478
 The Shifting Phillips Curve 481

12.2 Macroeconomic Policy and the Phillips Curve 486

IN TOUCH WITH DATA AND RESEARCH:
 The Lucas Critique 487
 The Long-Run Phillips Curve 488

12.3 The Problem of Unemployment 488

The Costs of Unemployment 489
 The Long-Term Behavior of the Unemployment Rate 489

12.4 The Problem of Inflation 493

The Costs of Inflation 493
 IN TOUCH WITH DATA AND RESEARCH:
 Indexed Contracts 495

12.5 Fighting Inflation: The Role of Inflationary Expectations 497

IN TOUCH WITH DATA AND RESEARCH:
 The Sacrifice Ratio 499
 The U.S. Disinflation of the 1980s and 1990s 500

CHAPTER 13 Exchange Rates, Business Cycles, and Macroeconomic Policy in the Open Economy 507

13.1 Exchange Rates 508

Nominal Exchange Rates 508

IN TOUCH WITH DATA AND RESEARCH:
Exchange Rates 509

Real Exchange Rates 510

Appreciation and Depreciation 511

Purchasing Power Parity 512

IN TOUCH WITH DATA AND RESEARCH:
McParity 513

The Real Exchange Rate and Net Exports 515

APPLICATION The Value of the Hong Kong Dollar and Net Exports 517

13.2 How Exchange Rates Are Determined: A Supply-and-Demand Analysis 519

Macroeconomic Determinants of the Exchange Rate and Net Export Demand 521

13.3 The IS–LM Model for an Open Economy 523

The Open-Economy IS Curve 524

Factors That Shift the Open-Economy IS Curve 527

The International Transmission of Business Cycles 529

13.4 Macroeconomic Policy in an Open Economy with Flexible Exchange Rates 530

A Fiscal Expansion 530

A Monetary Contraction 533

13.5 Fixed Exchange Rates 535

Fixing the Exchange Rate 536

Monetary Policy and the Fixed Exchange Rate 538

Fixed Versus Flexible Exchange Rates 541

Currency Unions 542

APPLICATION European Monetary Unification 543

APPLICATION Crisis in Argentina 545

APPENDIX 13.A Worked-Out Numerical Exercise for the Open-Economy IS–LM Model 554

APPENDIX 13.B An Algebraic Version of the Open-Economy IS–LM Model 557

CHAPTER 14 Monetary Policy and the Federal Reserve System 560

14.1 Principles of Money Supply Determination 561

Open-Market Operations 563

The Money Multiplier 564

Bank Runs 567

APPLICATION The Money Multiplier During Severe Financial Crises 568

14.2 Monetary Control in the United States 573

The Federal Reserve System 573

The Federal Reserve's Balance Sheet and Open-Market Operations 574

Reserve Requirements 576

Discount Window Lending 577

Interest Rate on Reserves 579

14.3 Setting Monetary Policy Targets 579

Targeting the Federal Funds Rate 579

14.4 Making Monetary Policy in Practice 583

Lags in the Effect of Monetary Policy 583

Conducting Monetary Policy Under Uncertainty 585

Monetary Policy in the Great Recession 586

APPLICATION The Financial Crisis of 2008 590

14.5 The Conduct of Monetary Policy: Rules Versus Discretion 591

The Monetarist Case for Rules 592

Rules and Central Bank Credibility 594

The Taylor Rule 596

Other Ways to Achieve Central Bank Credibility 598

APPLICATION Inflation Targeting 600

CHAPTER 15 Government Spending and Its Financing 606

15.1 The Government Budget: Some Facts and Figures 606

Government Outlays 606

Taxes 609

Deficits and Surpluses 612

15.2 Government Spending, Taxes, and the Macroeconomy 614

Fiscal Policy and Aggregate Demand 614

Government Capital Formation 616

Incentive Effects of Fiscal Policy 617

APPLICATION Labor Supply and Tax Reform in the
1980s 619

15.3 Government Deficits and Debt 621

The Growth of the Government Debt 621

APPLICATION Social Security: How Can It Be Fixed? 623

The Burden of the Government Debt on Future
Generations 625

Budget Deficits and National Saving: Ricardian
Equivalence Revisited 626

Departures from Ricardian Equivalence 629

IN TOUCH WITH DATA AND RESEARCH:

Measuring the Impact of Government Purchases
on the Economy 630

15.4 Deficits and Inflation 631

The Deficit and the Money Supply 632

Real Seignorage Collection and Inflation 633

APPENDIX 15.A The Debt–GDP Ratio 642

APPENDIX A Some Useful Analytical Tools 643

A.1 Functions and Graphs 643

A.2 Slopes of Functions 644

A.3 Elasticities 645

A.4 Functions of Several Variables 646

A.5 Shifts of a Curve 646

A.6 Exponents 647

A.7 Growth Rate Formulas 647

Problems 648

Glossary 650

Name Index 661

Subject Index 663
